Ana de la Cueva

Of art and design  
The Three Muses

New York and Guadalajara.

The Guadalajara, Mexico native has been a favorite in the art scene in her native city since 1990. Now sharing time between New York and Guadalajara, this artist has made a name for herself with her installations that incorporate textiles, paintings, videography and mixed media. She made a big splash in the art world with the exhibit of her work *Maquila*, a video installation in which an industrial sewing machine is shown embroidering the outlines of the U.S. and Mexico in white thread on white fabric and stitching a red border between them. An award-winning artist, De la Cueva has shown all over Mexico, in the U.S. and Europe. In addition to her gallery work, art lovers can see her work in public art pieces in San Francisco, Edmonton, Canada and Miami.
